The Southern Agency
Insurance & Bonds

METAL PROCESSING OPERATIONS

A press failure can interrupt the rolling line.

You process metal into sheet or profiles using heated mills where equipment failures can stall your entire production line.

RISKS WORTH DISCUSSING

01 **Press and rolling mill breakdown**

02 **Furnace and hydraulic fire**

03 **Anodizing chemical hazards**

ALUMINUM ROLLING & EXTRUSION INSURANCE

Coverage worth discussing

Commercial property
Protects extrusion presses and furnaces from damage.

Equipment breakdown
Covers repair costs for failed mills and press systems.

Products liability
Helps with damage caused by your finished metal profiles.

General liability
Covers third-party injury and property damage at plant.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
