

INDUSTRIAL SLAUGHTER AND PROCESSING

Line machinery can cause cuts.

You run slaughter and disassembly lines using powerful machinery and refrigerated storage. Line injuries, contaminated meat and refrigerant releases affect different employee, product and pollution interests.

RISKS WORTH DISCUSSING

- 01 Severe employee laceration injuries
- 02 Meat contamination and recall
- 03 Ammonia and refrigerant pollution

Coverage worth discussing

Workers compensation

Work-injury benefits for eligible processing-line employees.

Products liability

Covered resulting harm from accepted processed-meat products.

Commercial property

Insured processing assets after covered physical damage.

Environmental liability

Covered cleanup under accepted refrigerant-release terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
