

POLLINATION SERVICES

Colony loss and winterkill

You move colonies for pollination and extract honey. Colony mortality needs its own terms alongside buildings, vehicles and liability.

RISKS WORTH DISCUSSING

- 01 Colony loss and winterkill
- 02 Pesticide and chemical exposure
- 03 Hive theft and vandalism

Coverage worth discussing

Commercial property

Helps with damage to honey-house buildings and equipment.

General liability

Addresses covered sting-related injury claims for the public.

Products liability

Helps with injury allegations from accepted honey products.

Commercial auto

Helps with road liability from declared hive-hauling vehicles.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
