

SERVICE VANS AND APPLIANCE CONNECTIONS

A failed connection can flood a kitchen.

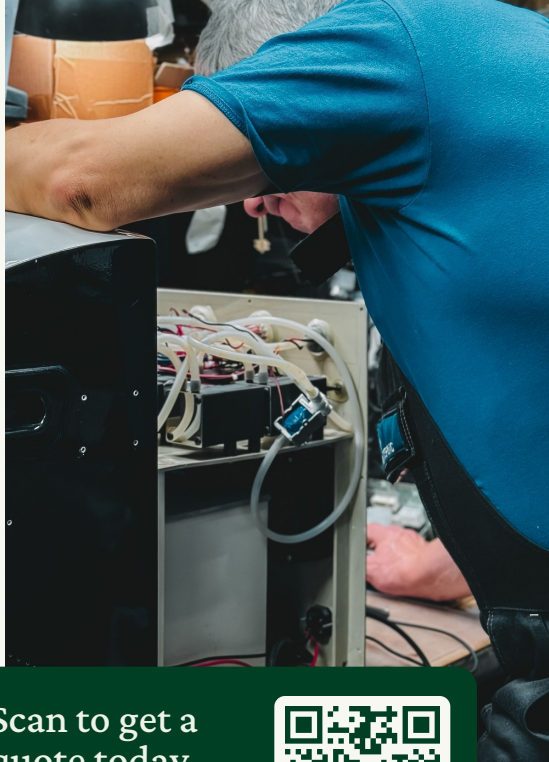

You repair appliances around water, gas or electrical connections in customer homes. Accepted completed work and resulting damage need terms distinct from redoing a repair or replacing the appliance itself.

RISKS WORTH DISCUSSING

- 01 Resulting damage from failed connections
- 02 Third-party damage during service visits
- 03 Road collisions on service routes

Coverage worth discussing

Commercial auto

Covered road liability for accepted service vehicles.

Inland marine

Insured tools and parts at accepted service stages.

General liability

Covered resulting harm from accepted completed repair work.

Workers compensation

Work-injury benefits for eligible repair technicians.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
