

STOCK PRODUCTION

Mass stock mortality

You raise fish or shellfish in tanks, ponds or coastal sites. Living-stock losses need terms distinct from buildings and pumps.

RISKS WORTH DISCUSSING

- 01 Mass stock mortality
- 02 Life-support equipment failure
- 03 Disease and parasite outbreaks

Coverage worth discussing

Commercial property

Insured hatchery buildings and declared tank equipment.

Environmental liability

Covered effluent or runoff claims under accepted terms.

Equipment breakdown

Covered internal failures of pumps or aeration machinery.

Products liability

Addresses covered injury claims involving sold seafood stock.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
