

ASPHALT REPAIR

Traffic keeps moving beside your crew.

Patching a busy lot puts hot materials and heavy equipment close to drivers and pedestrians. We review the road work you accept and how your equipment moves between jobs.

RISKS WORTH DISCUSSING

- 01 Burns from hot asphalt
- 02 Traffic entering the work zone
- 03 Sealant runoff onto adjoining property

Coverage worth discussing

General liability

Covered pedestrian injuries and damage to nearby property.

Commercial auto

Covered truck and trailer liability and selected vehicle damage.

Equipment breakdown

Repair costs for qualifying mechanical or electrical failures.

Workers compensation

Benefits for covered burns, strains and struck-by injuries.

Inland marine

Insured pavers and skid steers at jobsites and in transit.

Environmental liability

Covered pollution claims from sealant or solvent releases.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
