

BEET REFINING CAMPAIGNS

Boiler failure can halt the beet campaign.

You refine beets during a concentrated campaign. Boiler repairs, dust-fire damage and lost seasonal output depend on different property, breakdown and income terms.

RISKS WORTH DISCUSSING

- 01 Combustible sugar dust explosion
- 02 Boiler or centrifuge breakdown
- 03 Lost seasonal campaign output

Coverage worth discussing

Commercial property

Insured factory assets after covered physical damage.

Environmental liability

Covered cleanup from accepted processing releases.

Equipment breakdown

Covered internal failures of accepted boilers or centrifuges.

Products liability

Covered resulting harm from supplied sugar products.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
