

LIVING COLLECTIONS AND GROUNDS

Failed greenhouse heating can threaten living collections.

You tend living collections and welcome guests along paths, through conservatories, and at special events requiring careful facility management.

RISKS WORTH DISCUSSING

- 01 Bridge and pond falls
- 02 Heating system failure damage
- 03 Pesticide drift and contamination

Coverage worth discussing

General liability

Covered visitor injuries in accepted garden areas.

Commercial property

Insured greenhouses or buildings after covered physical damage.

Environmental liability

Covered pollution claims from accepted chemical duties.

Equipment breakdown

Covered internal failures of accepted climate-control machinery.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
