GRAIN MILLING AND CEREAL PRODUCTION

Allergen errors follow recipes.

You mill, toast or extrude grains into breakfast cereals. Shared ingredients, combustible dust and failed machinery can affect several recipes or retail-label runs.

RISKS WORTH DISCUSSING

01 **Pathogen contamination**

02 **Undeclared allergen cross-contact**

03 **Combustible grain dust**

BREAKFAST CEREAL MANUFACTURER INSURANCE

Coverage worth discussing

Products liability
Covered resulting harm from supplied cereal products.

Commercial property
Insured silos and production assets after covered damage.

Equipment breakdown
Covered internal failures of accepted extruders or dryers.

Workers compensation
Work-injury benefits for eligible cereal-production employees.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
