The Southern Agency
Insurance & Bonds

BREAKWATER CONSTRUCTION

Your work takes shape in tidal water.

Placing armor stone brings cranes, crews and unfinished works into a marine environment. We review shore and afloat duties, project protection and your pollution exposures.

RISKS WORTH DISCUSSING

01 **Over-water lifting incidents**

02 **Storm damage to unfinished barriers**

03 **Fuel releases into coastal water**

BREAKWATER CONSTRUCTION CONTRACTOR INSURANCE

Coverage worth discussing

General liability
Covered third-party claims from accepted shoreline operations.

Workers compensation
Benefits under applicable state or accepted Longshore terms.

Inland marine
Insured cranes and rigging under accepted operating conditions.

Environmental liability
Covered fuel or sediment releases from included operations.

Builders risk
Accepted storm and wave damage to the barrier in progress.

Surety bonds
Performance and payment bonds for specified project duties.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
