

BROILER POULTRY PRODUCTION

Flock loss during climate-control failure

You raise broilers in climate-controlled houses. A house repair, failed ventilation system and lost flock create different insurance questions.

RISKS WORTH DISCUSSING

- 01 Flock loss during climate-control failure
- 02 Poultry house fire
- 03 Equipment and alarm failure

Coverage worth discussing

Commercial property

Addresses insured damage to poultry houses and systems.

General liability

Addresses injury claims from visitors at your houses.

Equipment breakdown

Addresses repairs for climate systems after internal failure.

Workers compensation

Provides benefits for qualifying house worker injury claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
