BURGLAR ALARM INSTALLATION

A missed alarm can become a claim.

Customers rely on your intrusion systems to signal a break-in. Installation mistakes, monitoring duties and the security codes you hold each deserve a place in your coverage review.

RISKS WORTH DISCUSSING

01 **Alarm system failure claims**

02 **Faulty installation property damage**

03 **Sensitive customer data exposure**

BURGLAR ALARM CONTRACTOR INSURANCE

Coverage worth discussing

General liability
Covered injury or damage during alarm installation.

Professional liability
Covered design, programming or monitoring error claims.

Workers compensation
Provides benefits for employee injuries sustained while on the job site.

Inland marine
Protects your panels, tools, and programmers while in transit or at sites.

Cyber liability
Covered response costs for breaches of client security data.

Commercial auto
Covers service vehicles used to travel between installation appointments.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
