

CUSTOM FABRICATION & INSTALL

# Installation risks reach into client homes

You create and install custom cabinetry using stone and wood where heavy lifting and on-site work drive liability risks.

---

RISKS WORTH DISCUSSING

- 01 Silica dust from fabrication
- 02 Heavy slab handling injuries
- 03 Installation damage to property

# Coverage worth discussing

## General liability

May help with third-party damage from your install work.

## Inland marine

May protect your tools while in transit or at sites.

## Commercial property

May protect your workshop and slab inventory.

## Workers compensation

May provide benefits for heavy lifting injuries.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

### 01 Listen

We review your operations, coverage and past claims.

### 02 Assess

We look at hazards and ways to reduce risk.

### 03 Build

We compare carriers, premiums and audit terms.

### 04 Support

We revisit coverage as your work changes.
