

PROGRAMMING, HEADENDS AND SUBSCRIBER DATA

A headend fire can interrupt viewing.

You distribute programming and advertising through headends and network plant. Rights claims, subscriber records and machinery repair need distinct terms; a building limit does not describe every line.

RISKS WORTH DISCUSSING

- 01 Fire damage to accepted headend equipment
- 02 Claims involving programming or ad rights
- 03 Breaches of subscriber payment records

Coverage worth discussing

Commercial property

Insured accepted headend/network assets after covered loss.

Cyber liability

Covered subscriber-data response and privacy liability.

Professional liability

Claims under accepted programming/ad-media terms.

Equipment breakdown

Covered internal failures of accepted power/electronics.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
