

CUT-AND-SEW PRODUCTION

Dense fabric stock creates high fire potential

You cut and sew canvas into bags where fire can ruin seasonal stock or a failed seam on a finished bag can cause injury.

RISKS WORTH DISCUSSING

- 01 Fire load from fabric inventory
- 02 Cut-and-sew worker injuries
- 03 Product failures on bag seams

Coverage worth discussing

Products liability

May help with injury claims from failed products.

Workers compensation

May provide medical benefits for sewing staff.

Commercial property

May protect your fabric rolls and finished goods.

Inland marine

May protect stock while in transit to retailers.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
