

CATTLE FEEDLOT MANAGEMENT

Manure runoff and nutrient pollution

You feed and weigh cattle in pens, sometimes for customers. Animal-custody terms deserve attention alongside feed-mill machinery and runoff.

RISKS WORTH DISCUSSING

- 01 Manure runoff and nutrient pollution
- 02 Care of customer-owned cattle
- 03 Feed mill fire and dust hazards

Coverage worth discussing

Environmental liability

Addresses cleanup from covered manure or runoff releases.

Commercial property

Addresses insured damage to feed mills and buildings.

Equipment breakdown

Addresses repairs for mill machinery after internal failure.

Workers compensation

Provides benefits for qualifying mill or cattle-handling injuries.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
