The Southern Agency
Insurance & Bonds

TOWER STRUCTURES, CLIMBING AND COMPOUNDS

A collapse can damage tenant gear.

You own or manage towers and their support compounds. Tower structures, tenant antennas and generators need distinct insured interests, alongside accepted climbing duties and fuel/battery-release terms.

RISKS WORTH DISCUSSING

01 **Wind or collapse damage to insured towers**

02 **Employee falls during tower maintenance**

03 **Releases involving generator fuel or batteries**

CELL TOWER OPERATOR INSURANCE

Coverage worth discussing

Commercial property
Insured tower/compound interests after covered damage.

Workers compensation
Work-injury benefits for eligible climbing employees.

Equipment breakdown
Covered internal failures of accepted support generators.

General liability
Covered injury from expressly accepted tower-site work.

Environmental liability
Cleanup under expressly accepted fuel/battery-release terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
