

PRIVATE AIRCRAFT MANAGEMENT

Aircraft management errors can prompt owner claims.

You provide charter flights and coordinate aircraft maintenance for owners. Aviation liabilities need specialist terms alongside accepted management services, employees and ground assets.

RISKS WORTH DISCUSSING

- 01 Passenger liability on missions
- 02 Aircraft management duty claims
- 03 Client payment data theft

Coverage worth discussing

General liability

Supports covered premises injury and damage.

Commercial property

Insured ground facilities after covered physical damage.

Cyber liability

Funds response costs for itinerary breaches.

Professional liability

Eligible claims from expressly accepted aircraft-management services.

Workers compensation

Employee injury benefits for accepted pilot or ground duties.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
