

EGG PRODUCTION OPERATIONS

Contaminated eggs and withdrawal expense

You collect, pack and chill eggs each day. Laying-flock mortality and withdrawal costs need distinct terms alongside consumer-injury protection.

RISKS WORTH DISCUSSING

- 01 Contaminated eggs and withdrawal expense
- 02 Cold storage and packing interruption
- 03 Laying-flock mortality

Coverage worth discussing

Products liability

Addresses injury claims alleging contaminated eggs from production.

Commercial property

Addresses insured damage to layer houses and facilities.

Equipment breakdown

Covered internal failures of egg washers or graders.

Workers compensation

Provides benefits for eligible packing-line staff injury claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
