

CHIMNEY SWEEPING AND INSPECTION

A missed defect can become a fire claim.

Your work combines roof access with inspection judgment. Review liability for soot damage and alleged inspection errors, along with protection for employees and the cameras you carry between homes.

RISKS WORTH DISCUSSING

- 01 Falls from roofs and ladders
- 02 Soot and interior damage
- 03 Fire and carbon-monoxide claims

Coverage worth discussing

General liability

Helps with injury or property damage claims resulting from your services.

Workers compensation

Provides benefits for employees injured by roof or ladder falls.

Commercial auto

Covers your vehicles used to travel between residential service sites.

Professional liability

Covered claims alleging errors in chimney inspections and reports.

Inland marine

Covers cameras and brushes you move between service appointments.

Business owners policy

Combines liability and property insurance for your shop tools.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
