

CLAY PITS, SLURRY AND PROCESSING LINES

Slurry releases can reach waterways.

You extract clay and kaolin, then wash, handle or process material for shipment. Actual pits, slurry systems and processing equipment need terms distinguishing defined pollution events from routine water-management duties.

RISKS WORTH DISCUSSING

- 01 Slurry or sediment release allegations
- 02 Internal crusher or dryer failures
- 03 Damage to processing buildings or stocks

Coverage worth discussing

Environmental liability

Covered cleanup under accepted slurry-release terms.

Commercial property

Insured plant and stocks after covered physical damage.

Equipment breakdown

Covered internal failures of accepted processing machinery.

Inland marine

Insured mobile equipment at accepted mine locations.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
