The Southern Agency
Insurance & Bonds

PRECISION MACHINING OPERATIONS

# One stalled machine can halt multiple customer orders.

You operate CNC mills and lathes to produce precision parts where a single machinery breakdown threatens your schedule.

RISKS WORTH DISCUSSING

01 **Equipment breakdown and downtime**

02 **Defective or out-of-tolerance parts**

03 **Worker injuries on the floor**

CNC MACHINE SHOP INSURANCE

# Coverage worth discussing

**Commercial property**
Restores machines and stock after covered damage.

**Equipment breakdown**
Helps with electrical failures of your mills or lathes.

**Products liability**
Addresses claims if your parts cause injury or damage.

**Umbrella liability**
Extra limits above covered underlying liabilities.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
