

TEMPERATURE-CONTROLLED WAREHOUSING

Cooling faults can spoil stored goods.

You keep customers' goods within set temperature ranges. A refrigeration fault and the resulting customer-stock claim need coordinated terms.

RISKS WORTH DISCUSSING

- 01 Temperature-control failures
- 02 Damage to customer goods
- 03 Refrigerant leaks or staff injuries

Coverage worth discussing

Equipment breakdown

Covered internal failures of refrigeration systems.

Inland marine

Accepted customer-goods cover for declared chilled stocks.

Commercial property

Pays insured building, insulated-room, and owned-stock damage.

Environmental liability

Addresses covered refrigerant-release cleanup and third-party claims.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
