

SPRAY BOOTHS, WELDING AND STORED CARS

A booth fire can damage cars.

You restore vehicle panels, weld and refinish paint while cars await repair. Customer-car garagekeepers values need separate selection from shop property, accepted completed-work liability and solvent-release interests.

RISKS WORTH DISCUSSING

- 01 Customer-car damage while awaiting repair
- 02 Welding or spray-material fires
- 03 Overspray or solvent-release pollution

Coverage worth discussing

Garage liability

Covered liability from expressly accepted body-shop operations.

Workers compensation

Work-injury benefits for eligible body/paint employees.

Commercial property

Insured booths, tools and buildings after covered damage.

Environmental liability

Covered cleanup under accepted solvent/overspray terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
