

CONTINUOUS PRODUCTION LINES

Flour dust can fuel an explosion.

You run continuous baking lines with hot ovens and flour handling. Dust fires, contaminated batches and delivery accidents involve different plant, product and vehicle interests.

RISKS WORTH DISCUSSING

- 01 Oven and grease fires
- 02 Combustible flour dust
- 03 Allergen recall exposure

Coverage worth discussing

Commercial property

Insured baking lines after covered fire or explosion damage.

Equipment breakdown

Covered internal failures of accepted tunnel ovens or controls.

Products liability

Covered resulting harm from supplied wholesale baked goods.

Commercial auto

Covered road liability for declared bakery-delivery vehicles.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
