

COMMERCIAL OFFICE CONSTRUCTION

An office build brings valuable systems together.

Office projects combine glazing and systems with several trades. Review the structure and your obligations before materials arrive.

RISKS WORTH DISCUSSING

- 01 Subcontractor coordination liability
- 02 Curtain-wall and glazing exposure
- 03 Loss to the structure under construction

Coverage worth discussing

General liability

Helps respond to third-party injury or property damage at construction sites.

Surety bonds

Provides bonds to meet specific contract requests for performance.

Commercial auto

Covers trucks moving materials to congested urban job sites.

Builders risk

Covers office structures and building systems against fire or theft.

Workers compensation

Provides benefits for employee site falls or construction-related injuries.

Inland marine

Protects your tools and hoisting gear while in transit or at sites.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
