

PRESSES, PAPER AND SHOP SOLVENTS

Solvent fires can damage presses.

You run commercial presses while handling paper, inks and solvents. Machinery, chemical-release triggers and delivered-product injury need distinct terms; print corrections and rework require separate review.

RISKS WORTH DISCUSSING

- 01 Costly print-registration errors
- 02 Flammable solvent fires
- 03 Press operator crush injuries

Coverage worth discussing

Commercial property

Insured presses and paper after covered physical damage.

Environmental liability

Covered cleanup under accepted shop chemical-release terms.

Equipment breakdown

Covered internal failures of accepted printing machinery.

Products liability

Covered resulting harm from accepted delivered print work.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
