Insurance & Bonds

REPAIRS, RECOVERY AND ENTRUSTED DEVICES

A repair can overwrite client files.

You repair devices, remove malware or recover files in the shop or on site. Entrusted hardware needs accepted processing terms; lost information and service-error claims differ from replacing a laptop.

RISKS WORTH DISCUSSING

01 **Customer devices damaged during repair**

02 **Client files overwritten during recovery**

03 **Privacy incidents involving serviced devices**
