

CONCRETE CUTTING

A saw cut can cross a live service.

Diamond saws open slabs that may conceal utilities or tensioned reinforcement. Discuss the structures you cut and your dust and slurry controls alongside protection for mobile cutting equipment.

RISKS WORTH DISCUSSING

- 01 Struck-by and laceration injuries
- 02 Hidden utilities and tensioned reinforcement
- 03 Structural damage from misjudged cuts

Coverage worth discussing

General liability

Covered injury or property damage from cutting operations.

Inland marine

May help protect saws and wire-cutting equipment that travel between sites.

Environmental liability

May address third-party injury or cleanup costs from dust or slurry.

Workers compensation

May provide employee injury or occupational-disease benefits.

Commercial auto

May cover trucks used to haul saws and water tanks between jobs.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
