

CONCRETE FORMWORK

Temporary forms carry a permanent structure.

Forms and shoring carry heavy loads. Review engineering duties and how project property is insured during a pour.

RISKS WORTH DISCUSSING

- 01 Form blowout during placement
- 02 Shoring and falsework collapse
- 03 Falls and struck-by on elevated decks

Coverage worth discussing

General liability

May help respond to third-party injury or property damage from a blowout.

Inland marine

May help protect reusable modular forms and shoring towers.

Commercial auto

May cover trucks used to transport form panels and shoring.

Workers compensation

Benefits for covered falls and lifting injuries.

Builders risk

May help with physical loss to project property during construction.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
