

CORE DRILLING

A small bore can reach a critical cable.

Coring may strike post-tension cables or send slurry onto lower floors. Include drilling methods and mobile core-rig values in the coverage discussion.

RISKS WORTH DISCUSSING

- 01 Post-tension cable and rebar strikes
- 02 Concealed utility strikes
- 03 Water and slurry intrusion below

Coverage worth discussing

General liability

Covered injury or property-damage claims arising from drilling.

Inland marine

May help protect core rigs and vacuum systems between sites.

Environmental liability

May address cleanup from silica or slurry contamination.

Workers compensation

May provide benefits for employee injuries, including those from torque.

Commercial auto

May cover vehicles used to transport equipment and crews.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
