

HEAVY POTS, LINES AND LIVE HOLDING

Parted lines can lose crab pots.

You set heavy pots and keep live catch until landing. Vessel, deployed gear and crew need marine terms; failed holding machinery, lost pots and live-catch mortality require distinct provisions.

RISKS WORTH DISCUSSING

- 01 Lost deployed pots and lines
- 02 Pot-hauling crew injuries
- 03 Live-holding system failure

Coverage worth discussing

Commercial property

Insured shore buildings and equipment after covered damage.

Environmental liability

Covered cleanup under accepted fuel or hydraulic-release terms.

Equipment breakdown

Covered internal failures of accepted holding machinery.

Umbrella liability

Extra limits above expressly accepted marine liabilities.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
