

CRANE SERVICE AND RIGGING

A dropped load reaches beyond the crane.

Lift plans must account for setup, rigging and what the crane carries. Review road travel and crane damage separately from liability for the customer's load and the property around the lift.

RISKS WORTH DISCUSSING

- 01 Dropped or shifting loads
- 02 Crane tip-over
- 03 Power line and overhead contact

Coverage worth discussing

General liability

May address third-party injury or property damage during lifts.

Workers compensation

May provide benefits for employees, including riggers and signalers.

Equipment breakdown

May help with internal mechanical repairs if the mobile crane qualifies.

Commercial auto

May address covered road liability or physical damage for crane carriers.

Inland marine

Insured cranes and rigging at sites or in accepted transit.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
