

CUSTOM FENCES AND GATES

One post hole can reach a buried line.

Fence work combines digging with gate installation and shop fabrication. Consider utility strikes and automated-gate claims alongside the augers and materials you move through customer properties.

RISKS WORTH DISCUSSING

- 01 Buried utility strikes during digging
- 02 Property-line and boundary disputes
- 03 Damage to landscaping and surfaces

Coverage worth discussing

General liability

May address injury or property damage from digging or installation.

Inland marine

May help protect augers and fencing materials traveling between jobs.

Commercial property

May help cover the shop where fencing inventory and tools are stored.

Workers compensation

May provide medical and wage benefits for shop or installation injuries.

Commercial auto

May cover trucks and trailers used to transport crews and equipment.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
