

DAIRY PRODUCTION

Milking system and refrigeration failure

Your milking and cooling systems run every day. Repairing machinery, losing a herd animal and facing a contaminated-milk claim require different terms.

RISKS WORTH DISCUSSING

- 01 Milking system and refrigeration failure
- 02 Milk contamination and rejection
- 03 Herd death loss and disease

Coverage worth discussing

Equipment breakdown

Addresses internal failure of milking or cooling equipment.

Commercial property

Supports physical barns and silos following covered damage.

Products liability

Addresses third-party injury claims involving sold milk.

General liability

Covers liability for visitors or vets on premises.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
