CULTURED DAIRY PRODUCTION

A process fault can affect a dairy run.

You pasteurize, culture and chill dairy products. Contaminated lots, failed machinery and refrigerant releases create different product, repair and pollution interests.

RISKS WORTH DISCUSSING

01 **Product contamination and recall**

02 **Pasteurizer and refrigeration failure**

03 **Ammonia refrigeration release**

DAIRY PRODUCT PROCESSOR INSURANCE

Coverage worth discussing

Equipment breakdown
Covered internal failures of accepted pasteurizers or chillers.

Environmental liability
Covered cleanup under accepted refrigerant-release terms.

Products liability
Covered resulting harm from supplied dairy products.

Commercial property
Insured processing assets after covered physical damage.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
