

DENTAL TREATMENT AND PATIENT RECORDS

An extraction can injure a nerve.

You provide dental care. Procedures, sedation duties, clinicians and reporting dates need accepted specialist terms alongside premises, equipment and patient-record interests.

RISKS WORTH DISCUSSING

- 01 Nerve damage and extraction complications
- 02 Sterilization and infection control lapses
- 03 Digital patient health record breach

Coverage worth discussing

Professional liability

Specialist dental liability for accepted procedures and sedation.

General liability

Covered nonclinical patient or visitor premises injuries.

Cyber liability

Covered dental-record breach response and privacy claims.

Equipment breakdown

Covered internal failures of accepted dental imaging units.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
