

TEMPORARY PUMPS AND SITE DISCHARGE

A failed pump can flood a worksite.

You install pumps and discharge systems to keep excavations and work areas usable. Actual water routes, equipment stages and accepted pumping duties need terms distinguishing third-party harm from completing or redoing the work.

RISKS WORTH DISCUSSING

- 01 Third-party damage from pumping work
- 02 Pollution from discharged site water
- 03 Internal pump or generator failures

Coverage worth discussing

General liability

Covered third-party harm from accepted pumping operations.

Inland marine

Insured pumps and generators during accepted stages.

Environmental liability

Covered cleanup under accepted discharge-pollution terms.

Equipment breakdown

Covered internal failures of accepted pumping equipment.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
