

RENAL TREATMENT AND WATER SYSTEMS

Unsafe water can harm patients.

You provide repeated renal treatment through machines and purified water. Clinical allegations, internal equipment failures and waste releases involve different accepted services and loss triggers.

RISKS WORTH DISCUSSING

- 01 Water-system contamination
- 02 Dialysis machinery breakdown
- 03 Chemical and medical-waste releases

Coverage worth discussing

Professional liability

Specialist clinical liability for accepted renal treatment.

Environmental liability

Covered cleanup under accepted clinic-waste release terms.

Equipment breakdown

Covered internal failures of accepted dialysis machinery.

General liability

Covered nonclinical patient or visitor premises injuries.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
