

PET FOOD MANUFACTURING

Contaminated pet food can harm animals.

You cook, extrude or pack pet food under your own or private labels. Ingredient problems, dust and failed machinery can affect animal health and production assets.

RISKS WORTH DISCUSSING

- 01 Contamination and product recall
- 02 Combustible ingredient dust
- 03 Retort and extruder breakdown

Coverage worth discussing

Products liability

Covered resulting harm from accepted pet-food products.

Equipment breakdown

Covered internal failures of accepted retorts or extruders.

Commercial property

Insured production assets after covered physical damage.

Environmental liability

Covered cleanup from accepted plant byproduct releases.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
