

DOORS AND WINDOWS

An open wall leaves the interior exposed.

Replacement work brings fragile glass and temporary weather openings into occupied buildings. Discuss flashing-related damage and employee lifting injuries together with units staged or carried between sites.

RISKS WORTH DISCUSSING

- 01 Water intrusion from poor flashing
- 02 Glass breakage and handling injuries
- 03 Falls from ladders and lifts

Coverage worth discussing

General liability

Addresses covered third-party injury or property damage during installations.

Inland marine

Helps protect your inventory, units, and tools during site staging or transit.

Commercial property

Protects your shop or warehouse against fire and damage to stored items.

Coverage is subject to policy terms and exclusions.

Workers compensation

Offers medical and wage benefits for employees injured during installation.

Commercial auto

Supports covered claims for vehicles hauling installation crews and materials.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
