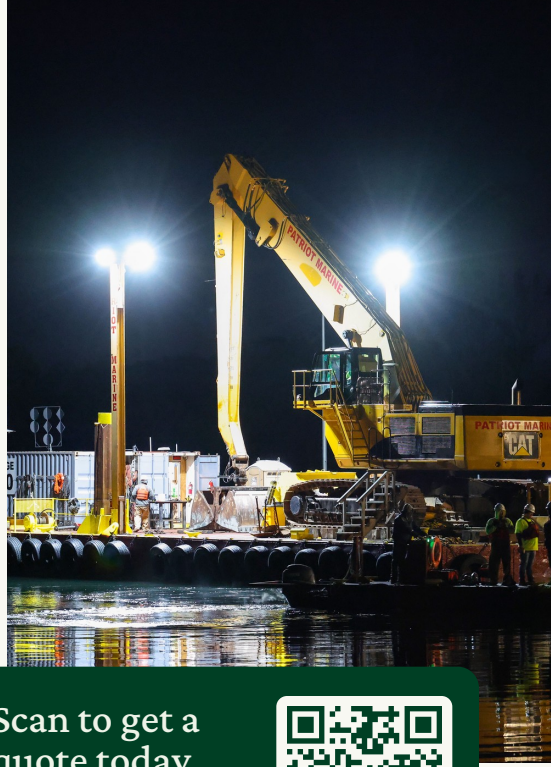
The Southern Agency
Insurance & Bonds

DREDGING

Dredging can release buried contaminants.

Sediment removal puts floating gear beside water-quality risks. Review crew duties and cleanup responsibilities.



RISKS WORTH DISCUSSING

01 Sediment and contaminant release

02 Fuel and hydraulic spills

03 Marine equipment loss

DREDGING CONTRACTOR INSURANCE

Coverage worth discussing

General liability
Addresses covered contractor liability for injury or property damage incidents.

Inland marine
Assists in covering shore-based pumps, piping, and operational gear.

Surety bonds
Bonds supporting specified performance and payment duties.

Environmental liability
Helps with covered cleanup costs for accidental sediment or fuel releases.

Workers compensation
Benefits under applicable state or accepted Longshore terms.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
