DRILLING

Ground conditions change along a bore.

Mobile rigs can encounter buried services while drilling fluids threaten groundwater. Describe your boring methods and any advisory work when reviewing liability, rig values and accepted breakdown protection.

RISKS WORTH DISCUSSING

01 **Underground utility strikes**

02 **Drilling-fluid and groundwater contamination**

03 **Rig and mobile equipment loss**

DRILLING CONTRACTOR INSURANCE

Coverage worth discussing

General liability
Helps with covered third-party injury or property damage from site work.

Inland marine
Insured mobile drilling rigs and pumps between sites.

Equipment breakdown
Covered internal failures of accepted rig engines and pumps.

Workers compensation
Provides benefits for employees injured during rig or machine operations.

Environmental liability
Covered cleanup and liability involving drilling fluids.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
