

DISPENSING, FRONT-STORE SALES AND STOCK

A wrong dose can harm a patient.

You dispense prescriptions and run front-store retail. Declare clinical procedures, providers and medication values; patient-data response, theft, cooler repair and medicine spoilage need distinct terms.

RISKS WORTH DISCUSSING

- 01 Allegedly incorrect prescription dispensing
- 02 Theft or diversion of accepted drug stock
- 03 Spoilage of temperature-sensitive medicines

Coverage worth discussing

Professional liability

Accepted dispensing terms for insured pharmacy professionals.

Equipment breakdown

Covered internal failures of accepted refrigeration equipment.

Crime insurance

Defined theft involving expressly insured pharmacy interests.

Commercial property

Accepted medication/retail stock after covered physical loss.

Cyber liability

Covered patient-data response and accepted privacy claims.

General liability

Covered nonclinical injury from accepted retail activities.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
