DRYWALL

# Fine dust can travel past the work area.

Hanging and finishing walls puts crews on stilts and scaffolds near finished surfaces. Consider dust migration and employee falls together with protection for taping tools and the supplies you carry.

RISKS WORTH DISCUSSING

01 Falls from stilts and scaffolds

02 Dust migration and cleanup demands

03 Damage to finished surfaces

DRYWALL CONTRACTOR INSURANCE

# Coverage worth discussing

**General liability**
Helps with covered third-party property damage or injury during wall work.

**Inland marine**
Protects your taping tools and scaffolds against theft during transit.

**Business owners policy**
Packages drywall liability and specified shop property for your firm.

**Workers compensation**
Provides benefits for employees injured by strain or falls from heights.

**Commercial auto**
Helps with road-accident claims for vehicles hauling drywall supplies.

Coverage is subject to policy terms and exclusions.

## Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
