

BEEF AND DAIRY

Cattle on roadways

You raise cattle for beef and milk with shared land and workers. Escapes, cooling failures and herd mortality raise distinct insurance questions.

RISKS WORTH DISCUSSING

- 01 Cattle on roadways
- 02 Milking equipment and cooling failure
- 03 Herd death loss across both enterprises

Coverage worth discussing

Commercial property

Insured barns and declared hay stocks after covered loss.

Equipment breakdown

Covers internal failure of insured milking and cooling.

General liability

Supports farming operations and specific cattle-escape incident liability.

Products liability

Addresses injury allegations related to milk or meat.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
