The Southern Agency
Insurance & Bonds

ELECTRONICS, BATTERY FIRE AND DATA DUTIES

A discarded battery can start a fire.

You dismantle electronics and recover components. Declare battery storage and any media-destruction work; physical stock, pollutant cleanup and accepted privacy-service duties require distinct terms.

RISKS WORTH DISCUSSING

01 **Battery fires in collected devices**

02 **Releases from hazardous components**

03 **Data left on customer storage media**

E-WASTE RECYCLING PLANT INSURANCE

Coverage worth discussing

Environmental liability
Cleanup under accepted component/dust release terms.

Equipment breakdown
Internal failures of accepted shredders/separators.

Workers compensation
Benefits for qualifying processing work injuries.

Commercial property
Insured facilities and accepted recovered stock.

Cyber liability
Privacy response for accepted media-destruction work.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 **Listen**
We review your operations, coverage and past claims.

02 **Assess**
We look at hazards and ways to reduce risk.

03 **Build**
We compare carriers, premiums and audit terms.

04 **Support**
We revisit coverage as your work changes.
