Coverage worth discussing

General liability

Addresses covered third-party injury or property damage from electrical work.

Professional liability

Assists with claims involving design or technical sizing errors.

Inland marine

Protects your testing gear and meters against damage or theft.

Workers compensation

Provides benefits for technicians injured by arc-flash or electrical shock.

Commercial auto

Helps with road-accident claims for service vans carrying tools.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
