

SUPPLYING WIRE AND JOB-SITE APPARATUS

Falling reels can damage expensive stock

You supply electrical apparatus and wire to contractors. Dropped stock or fires alleged to be caused by gear create claims.

RISKS WORTH DISCUSSING

- 01 Product and selection allegations
- 02 Heavy and copper-rich stock
- 03 Counter and delivery injuries

Coverage worth discussing

Commercial property

Pays for insured stock, fixture, and building damage.

Inland marine

Declared wire and electrical apparatus in covered transit.

Products liability

Addresses injury or damage from supplied apparatus.

General liability

Covers buyer injuries and third-party property damage.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
