

SOURCING AND DISTRIBUTING COMPONENT LOTS

Failed parts can impact finished products

You distribute components where lot history matters. Handling, moisture, and international transit create stock loss risks.

RISKS WORTH DISCUSSING

- 01 Authenticity and downstream loss
- 02 Static, moisture and handling damage
- 03 Transit loss or payment fraud

Coverage worth discussing

Commercial property

Covers insured stock and warehouse property damage.

Inland marine

Declared component parcels in covered cargo transit.

Products liability

Covered harm to others from supplied electronic components.

General liability

Covers third-party injury and physical site damage.

Coverage is subject to policy terms and exclusions.

Why The Southern Agency

01 Listen

We review your operations, coverage and past claims.

02 Assess

We look at hazards and ways to reduce risk.

03 Build

We compare carriers, premiums and audit terms.

04 Support

We revisit coverage as your work changes.
